

REMARKS

Claims 1, 3-7 and 9-19 were presented for examination and were pending in this application.

In an Official Action dated March 14, 2007, claims 1, 3-7 and 9-19 were rejected under 35 U.S.C. §101.

Applicants thank the Examiner for his time in conducting an interview with the undersigned representative on June 27, 2007. During the interview, the claims and the Examiner's rejection under §101 were discussed. An agreement was reached that claim 1, as amended herein, overcomes the rejection under §101. Specifically, claim 1 has been amended to recite that the data quality system is "computer implemented," and "executed by a computer server," and that the record pairs are "stored in and retrieved from the computer server." The various means for elements of the data quality system as therefore executed by the computer server as well. The data quality system thus uses a computer server and physical storage devices and data files to process, store, and retrieve the data.

Respectfully Submitted,

Dated: June 29, 2007
